

LINEAR PROFILE LUMINAIRE

LUCENT

P11-501000

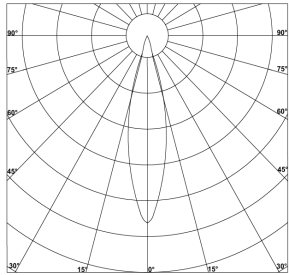

PRODUCT FEATURES

DESCRIPTION

Lucent is a high-performance linear profile luminaire featuring an extruded aluminum housing and integrated LED modules. Designed for continuous, glare-free illumination, it supports surface mounted, and suspended installations. Lucent delivers uniform light output, making it ideal for offices, educational institutions, and modern residential applications. Available accessories include suspension kits, end caps, linear connectors, ceiling mounting frames, and joiners for seamless continuous runs.
